LIFTING POINT COMPLAINCE STATEMENT

This document confirms that the lifting points fitted to products listed in the following table have undergone proof load testing in accordance Australian Standard AS4991-2004 (Clause 12.2 - Proof Loading). Testing of the lifting points has been conducted on a representative sample of each model and has been found to comply with the standards requirements at the time of manufacture.

IMPORTANT NOTES

1. This statement verifies that the *design and type* of the lifting points on the representative sample has been tested and deemed fit for purpose ex-factory. It does not constitute a certification of every individual unit or serial number.
2. Periodic inspection and, where appropriate, re-testing of the lifting points are the responsibility of the equipment owner/operator to ensure continued compliance with relevant safety and workplace regulations.
3. Any lifting points that show signs of damage (e.g. cracking, bending, twisting, wear, or corrosion) must be immediately removed from service. Replacement of the lifting hook or component is required before further use.

Brand	Product	Model Number	Certification Reference No.
Mikasa	Reversible Plate Compactor	MVH-R60	AV7802
Mikasa	Reversible Plate Compactor	MVH-158GH	AT1945
Mikasa	Reversible Plate Compactor	MVH-158DY	AT1948
Mikasa	Reversible Plate Compactor	MVH-308GH	AT1944
Mikasa	Reversible Plate Compactor	MVH-308DSY	AT1947
Mikasa	Reversible Plate Compactor	MVH-508DSZ	AT1946
