

# FLEXTOOL PRESSURE CLEANER FPC-4000

Flextool Pressure Cleaners are engineered for high-performance cleaning in demanding commercial environments. Featuring a robust, heavy-duty steel frame and quality Annovi Reverberi pump with solid brass head and ceramic pistons, the Flextool Pressure Cleaner range delivers reliable results across a range of applications and industries.

The flat-free, all-terrain wheels provide enhanced manoeuvrability and stability while the adjustable detergent injection system allows operators to shift from heavy degreasing to final rinse without slowing down.

The Flextool FPC-4000 is powered by a Honda GX390 for reliable operation, producing a powerful 4000 psi working pressure at 15 L/min, rapidly cutting through stubborn build-up while maintaining consistent output.
