

# MIKASA REVERSIBLE PLATE COMPACTOR MVH-508DSZ

Mikasa Reversible Plate Compactors set the standard for efficient compaction of sand, gravel and cohesive soils in trenches and large construction projects. They offer high-compaction capacity, superior travel speeds and feature fully hydraulic direction control for easy direction change. They are ideally suited for civil construction works, drainage contractors and the rental industry.

### Engine hour meter and tachometer

· Efficiently manage service intervals

• Monitor rpm for optimum compaction performance

#### Lifting hook

Central lifting hook for easy and safe onsite handling

Hatz 14.1 hp diesel engine

Provides hassle free operation, low fuel consumption and long-term reliability

## Full engine protection frame

- Robust frame provides superior protection against engine damage
- Hinge design simplifies maintenance and offers convenient access to all serviceable components

## Forward/reverse control lever

With built-in actuator for seamless and smooth transition between both forward and reverse motions

#### Cyclonic air filtration system

For superior air filtration to lengthen service internals and improve engine protection

# Anti-vibration and adjustable handle

- Low vibration handle for reduced hand and arm vibration transfer to the operator
  - Height adjustable handle for improved operator comfort

#### Sealed clutch and belt guard

Protects against the ingress of dust and other unwanted materials that can prematurely wear out critical clutch components and V-belt

## Removable extension plates

Easily adjust the width of the plate to match job requirements
