

# SMITH PERFORMANCE SPRAYERS INDUSTRIAL CONCRETE SPRAYER S103E

The Smith Performance Sprayers Industrial Concrete Sprayer S103E is built to withstand harsh chemicals and is targeted towards contractor or construction work with ease of use and durability at its core. This stainless steel sprayer is fitted with chemical resistant seals and brass components specially designed for contact with acetone, xylene, bond breakers, curing compounds and other concrete chemicals.

#### Chemical resistant

1.25 metre chemical resistant and nylon reinforced rubber hose for greater wear resistance

#### Pressure release valve

For safe and easy release of internal pressure before opening the canister

#### Stainless steel tank

- Provides high chemical resistance and improved corrosion resistance for longer lifespan
- 13.25 Litre tank capacity

#### Heavy-duty trigger

Heavy-duty trigger with locking function for continuous spray along with in-line filter to reduce spray tip clogging

#### Spray wand holder

Stainless steel wand holder securely holds and protects wand and spray tip
